Mr. Joe Schieffelin  
Hazardous Waste Facilities Unit Leader  
Colorado Department of Public Health and Environment  
4300 Cherry Creek Drive South  
Denver, Colorado 80222-1530

Gentlemen:

Please find enclosed two copies of the document entitled "Draft Master List of Potential Federal and State Applicable or Relevant and Appropriate Requirements for the Rocky Flats Environmental Technology Site". This document lists potential Applicable or Relevant and Appropriate Requirements (ARARs) to be used as a basis for selecting operable unit-specific ARARs for response actions under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) at the Rocky Flats Environmental Technology Site (Site). Recall that the U.S. Department of Energy, Rocky Flats Field Office identified November 1, 1994, as the tentative date for transmittal of this document in our July 29, 1994, letter to the U.S. Environmental Protection Agency, Region VIII, and the Colorado Department of Public Health and Environment (formerly Colorado Department of Health).

We request that the ARARs Working Group plan to meet in mid-November 1994 to discuss issues associated with the potential ARARs listed in the enclosed document. As a starting point, we propose that the working group meet from 8:30 a.m. to 12:00 noon on Wednesday, November 16, 1994. Conference room number 67 in T117-A at the Site is the proposed location for the meeting. We request that you provide us with verification that you and your representatives will attend the proposed meeting by November 9, 1994. If you and your representatives are unable to attend, we request that an alternate time and location be proposed. In addition, we request that you provide written comments on the enclosed document by December 1, 1994.
